ABOUT ZOULTECH ENERGY

Electrical Testing & Commissioning Specialists.

Zoultech Energy Trading & Contracting Services is a multidisciplinary engineering and contracting business with a strong focus on electrical testing, substation testing and commissioning, technical manpower and test equipment supply and rental. We also provide MEP contracting, civil and construction, training and software development services.

We work as a practical project-support partner for testing companies, EPC contractors, engineering organisations and industrial clients, with an emphasis on technical capability, responsiveness and equipment availability.

20+ Years

Electrical focus with supporting services

OUR SERVICES

Core Strengths. Supporting Capabilities.

01

Substation Testing & Commissioning

Testing, commissioning and support for substations and electrical assets.

02

Test Equipment Rental & Supply

Specialised electrical test equipment for testing, commissioning and maintenance.

TECHNICAL SUPPORT

03

Electrical Engineering & Technical Manpower

Skilled manpower for testing, commissioning and maintenance activities.

SUPPORTING CAPABILITIES

04

MEP Contracting

MEP installation and contracting services.

05

Civil & Construction

Civil and construction support services.

06

Training & Skill Development

Practical training and skill development programs.

07

Software Development

Custom software development solutions for engineering and industrial needs.

ZOULTECH ENERGY

DELIVERING EXCELLENCE

SERVICE 01

SUBSTATION TESTING & COMMISSIONING

Testing, commissioning, maintenance and project support for substations and electrical assets.

Substation Testing & Commissioning

Testing and commissioning of substations and associated electrical assets.

Protection & Relay Testing

Protection and relay testing support.

Project-Based Testing

Testing and commissioning activities based on project scope.

Technical Manpower

Support for testing, commissioning and maintenance.

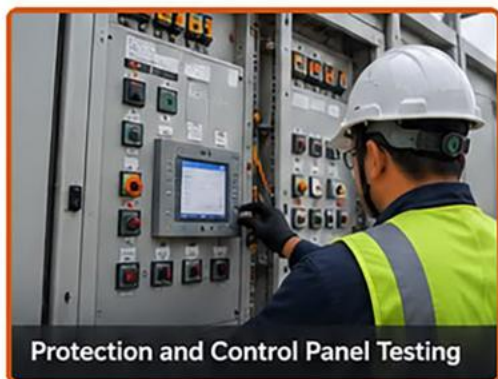

Electrical Asset Maintenance

Maintenance and project support for electrical assets.

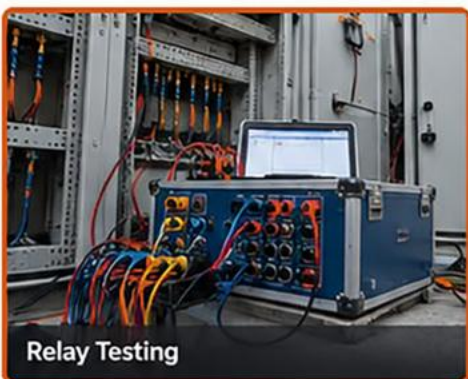

Test Equipment Support

Supply and rental of equipment for testing and commissioning needs.

Protection and Control Panel Testing

Relay Testing

Transformer / Circuit Breaker Testing

Supporting testing companies, EPC organisations, contractors and engineering teams.

Have a Testing or Commissioning Requirement?
Talk to Zoultech Energy.

TESTING SERVICES

Testing That Powers Reliable Systems.

Electrical testing support for substations, protection systems and electrical assets.

Relay & Protection Testing

Secondary injection and protection checks.

Transformer Testing

Testing support for power and distribution transformers.

Circuit Breaker Testing

Breaker timing and operation checks.

Insulation Resistance Testing

Insulation condition checks on electrical assets.

Contact Resistance Testing

Low-resistance measurement on contacts and joints.

Technical Manpower Support

Skilled manpower for testing, commissioning and maintenance activities.

Testing requirements are handled as per project scope.

ZOULTECH ENERGY
DELIVERING EXCELLENCE

TECHNICAL SUPPORT

Skilled People. Reliable Electrical Assets.

Technical manpower and maintenance support for testing, commissioning and electrical projects.

Technical Manpower

- ✓ Electrical engineers
- ✓ Testing and commissioning technicians
- ✓ Site supervisors
- ✓ Panel and wiring technicians
- ✓ Maintenance technicians

Deployed on a project basis, as per scope.

Electrical Asset Maintenance

- ✓ Maintenance of substations and electrical assets
- ✓ Routine inspection and testing support
- ✓ Project-based technical assistance
- ✓ Support for testing and commissioning teams

Practical Support

Focused on real project requirements.

Project-Oriented

Support aligned with project scope.

Responsive Teams

Technical support when you need it.
